

A PATH TO SUCCESS FOR EVERY LEARNER: PERSONALIZING LEARNING THROUGH RTI/MTSS

Branching Minds is a cloud-based application using the most advanced learning science and academic research to help schools transform their RTI/MTSS systems.

By helping teachers to follow best practices of problem-solving work efficiently, effectively and collaboratively from the start, Branching Minds saves teachers time and effort while improving student outcomes for ALL students.

ACADEMIC GROWTH

Percentile on NWEA Map

Branching Minds is an excellent resource that's effective in helping interventionists, classroom educators, and administrators work smarter, not harder!

Rebecca Yellets, Supervisor of Specialized Intervention
Prince William County Schools (VA)

BRANCHING MINDS HELPS EDUCATORS TO:

- Make data-driven decisions at every step of the intervention process
- Collaborate easily and consistently across grades, school, and the district
- Problem-solve for student support guided by the best practices of RTI
- Understand students' strengths and challenges across academic, cognitive, social-emotional and behavioral areas
- Immediately access and understand the support plan, its implementation, and effectiveness
- Help students succeed faster and more easily

For the first time ever, teachers feel empowered to provide the appropriate intervention for struggling students. They truly have a voice, but not only that, Branching Minds brings that teacher collaboration to the forefront.

Cindy Crowe-Miller, Principal, Dale City Elementary School
Prince William County Schools (VA)

Branching Minds' innovative approach personalizes and individualizes effective interventions to meet the needs of every child.

Dr. Jill Gildea, Superintendent
Fremont School District 79 (IL)

Branching Minds helps schools develop and achieve a highly effective RTI / MTSS system that supports all learners, from those who have fallen behind to those who struggle because they are far ahead.

LEARNING SCIENCE
+ BEST PRACTICES
—
STREAMLINED EFFECTIVE RTI/MTSS
